To Do:

Find a company who offers all of the telecommunications services my business needs, including mobile — and thinks I am just as important as a big business.

Cbeyond.

The last

communications

company your

small business

will ever need.[™]

Cbeyond now offers its BeyondVoice I package complete with BeyondMobile service, delivering all the communications needed to power a growing business. Now you can combine mobile voice and data with the rest of your business communications services — all from one provider, one bill, one account management tool and one number to call for support. What could be simpler?

How it Works

1. Select Cbeyond's BeyondVoice I package:
 - Get up and running quickly — Cbeyond typically installs within 30 days of your order.
 - Change or add on services, view billing and more using CbeyondOnline.[™]
2. Select the number of mobile lines you need and choose your handset from the models available.
 - Exchange local phone lines for mobile lines (up to two).¹
 - Add as many mobile lines as needed.
3. In addition to your BeyondVoice I high-speed Internet, local, long distance and mobile phone, your basic package also includes:
 - Managed Firewall
 - Enhanced Web Hosting
 - Secure VPN Remote User
 - Secure Backup & Fileshare
